INTEGRATIVE-TYOLOGICAL MODEL OF PSYCHOLOGICAL AND PEDAGOGICAL SUPPORT OF PROFESSIONAL SELF-DETERMINATION

S. L. Lenkov¹, N. E. Rubtzova²

¹Institute of psychological and pedagogical problems of childhood, Russian Academy of Education, Moscow

²Department for coordination of Scientific Researches, Apparat of the Presidium, Russian Academy of Education

Presents a theoretical model of psychological-pedagogical support of professional self-determination of children and youth, created in the framework developed by the authors of the new, integrative-typological approach. The model includes certain structural components, functional blocks, the procedural stages and provides for the creation of activity-related competencies professional choice and anthropologically oriented axiological foundations of professional formation.

Keywords: *professional self-determination, axiological grounds, psychological and pedagogical support, theoretical model, integrative-typological approach, the psychological classification of professional activities, individual trajectory of professional development, competence of professional choice.*

SOME TRENDS IN THE UNDERSTANDING OF THE NATURE OF COMPETITION AND PHENOMENOLOGY OF COMPETITIVENESS

O.A. Kliueva

Tver State University

A brief theoretical analysis of the case studies related to personality competitiveness and analysis of operationalization and measurement has indicated the need for subject activity-based, and also the situation-based approach when describing the phenomenology of personality competitiveness in view of the competition model. Otherwise it caused reduction of the phenomenon content to only one of the components.

Keywords: *competition, competitiveness, competence, innovation, personality, activity.*

INDIVIDUAL PSYCHOLOGICAL ABILITIES OF THE SELF-REGULATION OF THE ACTIVITIES OF CALL-CENTER OPERATORS'

L.G. Lavrova

Tver State Univtrcity

The article gives the results of the study of the individual psychological abilities (temperament, motivation, sphere of emotions and will, value orientations) of call-center operators' activities. The practical importance of the self-regulation and interrelation of a successful performance and individual psychological abilities of operators are proved.

Keywords: *self-regulation, individual psychological abilities: temperament, emotions, will and sphere of emotions, value orientations.*

Keywords: *representational activities, principles of graphic activity, development, art methods, art therapy.*

EXPRESSIVE MODEL OF PERSON'S TACTIL BEHAVIOUR: SPECIAL ASPECTS, CIRCUMSTENCES AND FORMAL OBJECTIVES

A.A. Romanov, E.V. Malysheva

Tver State Agricultural Academy

The article describes specificity of participants` communicative behavior in expressional model of tactile behavior. The authors conclude that the specificity of such behavior is determined by the level of adaptability of dialogue partners to interaction and their interest in further cooperation.

Keywords: *haptics, tactile behavior, dialogue, initiator, addressee, communication, complex communicative behavior.*

SPELLING ERRORS AND SEMANTIC RESONANCE AMONG YOUNG PEOPLE, TEENAGERS AND CHILDREN ON INTERNET COMMUNICATION

O. G. Ivanovskaya

Leningrad state University named after Alexander Pushkin

The everyday life of man can be considered as continuous transitions from one semantic space to another as people relate themselves to a particular community of people with similar semantic characteristics: needs, interests, knowledge, etc. We have considered the meaning of the texts, "noisy" spelling errors in the format of Internet correspondence, learners of different age groups who are members of the Internet community as the emergence of their semantic resonance on the Internet communication. The study reveals the leading activity of students of different ages using the Internet and shows that reading online texts does not have a positive impact on improving their literacy.

Keywords: *text, understanding, meaning, semantic resonance, Internet correspondence.*

LANDSCAPING ART THERAPY AS A INNOVATIONAL GARDENTHERAPYPROGRAMDIRECTION BASE ON SCIENCE-EDUCATIONAL CENTER "BOTANICAL GARDEN OF TVER STATE UNIVERSITY"

Yu.V. Naumtsev¹, L.R. Sharafieva²

¹Tver State University

²Studio of landscape art therapy "So-Tvorenie"

Theoretical foundations and description of findings from a pilot study of the new art therapy method, environmental art therapy, are presented. Theoretical prerequisites for environmental art therapy programmes with the use of systemic art therapy approach are considered. Factors and mechanisms as well as goals of environmental art therapy have been described. One of the programmes of this kind that was materialised during a year period with autistic children and their families has been presented. Examples of various forms of activities and effects achieved have been given.

Keywords: *botanical garden, art therapy.*

THE CONTEMPORARY PARADIGM FOR EDUCATION WITH THE POSITION CAUSE AND EFFECT THE ATTITUDES

N.K. Poleshchouk¹, S.N. Evdokimov¹, I.L. Samysenko²

¹CNII Forces Aerospace Defense the Ministry of Defense of Russian Federation

²Tver State University

Retrospective for pedagogy problems and dynamics of development for education paradigm are considered. Negatives of paradigm consequences «education for all life» are presented. Induced cause factor for transition to the new paradigm of education are revealed. Effectiveness of

education directions are determined connection with positive aspects of paradigm «education through all life».

Keywords: *causes, consequences, education paradigm, pedagogical process, educational space, competence, control for knowledge.*

ABOUT METHODS AND KONTEXTS IN PRONUNCIATION TEACHING (BASED ON GERMAN LANGUAGE)

I.S. Krestinskiy, D.P.Moroseev

Tver State University

In this article the role of practical phonetics in the system of teaching foreign languages is defined; psychophysiological principles of pronunciation teaching on the basis of accepted psychological theories of teaching are formulated; corresponding classification of exercises aimed to develop phonetic competence is given; existing institutional contexts and methodical approaches to pronunciation teaching are described, their advantages and disadvantages are laid out.

Tver State University, Institute of Teacher Education. In this article the author talks about working on the development of children's vocabulary-inofonov in preparatory groups in the process of working on the theme of "domestic animals and birds."

Keywords: *phonetic, lexical, grammatical speech difficulty; activation of the dictionary; the influence of the native language.*

EXPERT EVALUATION OF TEXTBOOKS FOR PRIMARY SCHOOL BASED ON NEW EDUCATIONAL STANDARDS OF GENERAL EDUCATION

T. V. Babushkina

Tver State University

The paper examines new procedure of expert evaluation adopted for school textbooks and defines the role of expert evaluation in assessment of their compliance with Federal State Standards of Education. The paper is supported by ten years of experience the author has in expert evaluation of textbooks under the auspices of Federal expert council and in authoring textbooks approved for use in general comprehensive schools.

Keywords: *Federal State Standard of Education, procedure of expert evaluation of textbooks.*

CONCEPTUAL ASPECTS OF THE NATIONAL QUALIFICATIONS FRAMEWORK

O. N. Oleynikova¹, N.M. Zolotareva²

¹Centre for VET Studies, Moscow

²Department state policy in the field of training of the workforce and DPO Ministry of Education and Science of the Russian Federation

The article analyses contemporary trends in the development of qualifications, their underlying causes and meaning as a tool to translate labour market requirements into education standards and curricula. Key functions and options for their systematization in the format of qualifications frameworks are presented that describe all qualifications by the area of occupational activity and level. International practices of developing qualifications frameworks and typology of diplomas and certificates are overviewed.

It is stressed that development and classification of qualifications is performed using learning outcomes. In the countries that are reforming their qualifications and are introducing sector and national qualifications frameworks, innovations are observed relating to the use of learning outcomes. It is noted that in Europe learning outcomes are a common denominator underpinning such instruments of the EC policy in the field of education and training, as the EQF, Europass, ECVET, EU Education and Training framework Programme.

Keywords: *qualifications framework, descriptor, learning outcomes, certification.*

One such solution could be the use of mass media as a means of development of musical culture. **Methods:** The study provides the following methods: means creating PR and media attractive image of the subject "Music"; method of projects; organization of school newspaper and rubric «music»; method of use of media products that promote the formation of musical culture schoolchildren.

Keywords: *the subject "Music", mass media, methods of formation of cognitive interest.*

CHARACTERISTICS OF PSYCHOLOGICAL DEFENSE MECHANISMS IN FIRST EPISODE OF PARANOID SCHIZOPHRENIA

O. S. Koulikova

Orenburg State Medical Academy

This article is devoted to experimental study of characteristics of psychological defense mechanisms in first episode of paranoid schizophrenia. We have recruited 80 participants with first-episode of paranoid schizophrenia and 50 participants without mental illness for study of capabilities of social adaption and specifics of psychological defense. As a result of comparison study we find out the statistically significant differences between our groups with more pronounced and nonselective functioning of psychological defense in first-episode of paranoid schizophrenia. We use the conception of psychopathological vulnerability and we consider these characteristics of psychological defense in first-episode of paranoid schizophrenia to be a premorbid factor of stress vulnerability and of predisposition to mental illness.

Keywords: *psychopathological vulnerability, psychological defense mechanisms, first episode of paranoid schizophrenia.*

ANALYSIS OF MODEL OF ENGINEER'S PROFESSIONAL AND CREATIVE ABILITIES DEVELOPMENT BY MEANS OF ACMEOLOGY IN THE HIGHER EDUCATIONAL ESTABLISHMENT

A. G. Mikhaylova

Sevastopol National Technical University

The author investigates the model of future engineers' professional and creative abilities development. The necessity of including of acmeology as the base of future engineer's professional and creative formation is justified. The tasks of creation of this model are considered. The author comes to the conclusion that the main functions of formation process of engineers' professional and creative abilities development are self-realization, self-development and self-estimation.

Key words: *higher education, education quality, engineer, acmeology, acme, acmeological approach, engineers' professional and creative abilities development.*
